EDUCATION

University of Cincinnati, Cincinnati, Ohio **Graduating: May 2030**
Bachelor of Science in Computer Science GPA: 3.68

SKILLS

Programming & Security Tools: Python, C++, LabVIEW, Wireshark, Metasploit, Nmap, Aircrack-ng, Social Engineering Toolkit
OS & Software: Google Workspace, Microsoft Office, Adobe Suite**,** Windows 11, MacOS, Parrot OS, Kali Linux
Interests: Tennis, Coffee, Traveling, Hiking, Swimming, Chess

PROJECTS

VoxVitals — AI Clinical Trial Platform | Revolution UC 2026 | https://voxvitals.anshulraman.tech/ **March 2026 – Present**
3rd Place, Medpace Clinical Trial Challenge | Best Use of Presage API (MLH)

- Led **product vision & architecture** for a full clinical trial monitoring system built in **24 hours**, coordinating a **4-person team** across patient, doctor, & lead doctor dashboards
- Co-built the doctor and lead doctor dashboards featuring AI-powered risk stratification, real-time patient timelines, dropout prediction, doctor performance analytics, and a simulation lab for synthetic patient testing
- Integrated **Presage SDK** for passive real-time physiological sensing via camera, **ElevenLabs** for voice check-ins and custom voice phrase login, and **Gemini API** for intelligent alert detection and risk scoring
- Shipped a role-based multi-user system with real-time messaging, emergency alerting, medication scanning, and symptom-to-disease matching using patient history

Gradintel — Full-Stack Academic Performance Platform | https://gradintel.anshulraman.com/ **February 2026 – Present**

- Architected & designed a full GPA tracking platform end-to-end, from data models & backend logic to product features & UX flow
- Engineered core **Python** logic for **GPA calculation**, **grade simulation**, weighted scoring, and **at-risk course detection** while directing AI tooling with integrating Gemini, Grok, Claude, and OpenAI APIs
- Shipped full product to **live users**: cloud sync via Supabase, gamification (XP/badges/streaks), data export, GPA card sharing, and mobile-responsive UI

RAT Development & Penetration Testing | Controlled Lab Environment **June 2025 – July 2025**

- Engineered a cross-platform **Metasploit RAT** with **12+ remote functions**, like surveillance, GPS, & SMS exfiltration
- Performed **post-exploitation analysis** on Android and Windows to document permission weaknesses and access-control gaps

Wi-Fi Penetration Testing Device | Controlled Lab Environment **July 2025 – August 2025**

- Engineered a portable **ESP8266MOD-based security tool** to assess **802.11 vulnerabilities**
- Simulated **Evil Twin nodes** to audit **20+ device connection attempts** & document credential-harvesting risks from rogue access points

Bus Booking System | Personal Project **January 2026 – February 2026**

- Automated seat tracking and booking-ID generation, cutting booking conflicts by roughly **90%**
- Added persistent file-storage logic that retained **100%** of user data across sessions

EXPERIENCE

President, Science Club, Sant Gyaneshwar Model School, Alipur, Delhi, India **May 2023 – March 2024**

- Led and managed school-wide science events, demonstrating leadership**,** professionalism**,** & team coordination
- Collaborated with staff & student teams to design interactive STEM activities, fostering a culture of curiosity & innovation

Event Coordinator, Tapan Rehabilitation Centre, Karnal, Haryana, India **December 2022 – January 2023**

- Supported children with special needs using patience, adaptability, and empathetic communication
- Coordinated an inclusion-awareness event with staff & volunteers, demonstrating leadership & community engagement

ACTIVITIES

- **Clubs**: Tennis Club, Bearcat Tech Innovators, IEEE, AAEO, UC Robotics, AI Society
- **Sports**: Tennis, Badminton, Cricket, Soccer, Volleyball, Pickleball, Padel

VOLUNTEER WORK

Mary Magdalen House (Cincinnati): Managed intake and sorted donations to provide clothing for unhoused individuals
Bearcat Recycling: Participated in facilitating waste sorting and sustainable disposal at 5/3 Arena following athletic events
Epic House Service: Hand-painted and delivered mini canvases to provide art for elderly residents

AWARDS & HONORS

- **Dean's List** | College of Engineering and Applied Science (Since Fall 2025)
- **Gold Medal** | National-Level Science Olympiad (2023)
- **Gold Medal** | National Abacus Competition (2023)
- **Top 150 National Ranking** | All India Tennis Association (AITA) (2022)

AVAILABLE FOR CO-OP: FALL 2026
